The Municipality of Tábua, informs that the distribution of food for the animals affected by the fires will be carried out through the ANCOSE - Association of Sheep Breeders of Serra da Estrela, promoting the supply of straw rations / bales for the animals (dogs, cats, sheep, cattle and goats).

Therefore, all those interested in receiving this support should go to ANCOSE's premises, and in the absence of transportation, they should contact the services of this association, so that the distribution of their support is coordinated between the ANCOSE and the Municipality of Tábua.
